DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 1/9/2006 has been entered.

Claim Rejections - 35 USC § 112^{1st}

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-6 and 18 and 21 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The disclosure lacks clear written description in a description on “performance information”. The specification fails to define or describe the terms “performance information”, “a first portion of the information”, “new performance information” and “performance parameter”. It is unclear what is performance information or new performance information. The specification fails to show how the performance information effecting associated clients. It is

also unclear how will information associated with the set of clients being used to determine whether the new clients should be used instead of the first primary client.

Claim Rejections - 35 USC § 112^{2nd}

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-6 and 18 and 21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 1-6 and 18 and 21 are vague and indefinite because it is unclear what is performance information or new performance information. The specification fails to show how the performance information effecting associated clients. It is also unclear how will information associated with the set of clients being used to determine whether the new clients should be used instead of the first primary client.

Response to Arguments

6. Applicant's arguments with respect to claims 1-6 and 18 and 21 have been considered but are moot in view of the new ground(s) of rejection.
